**MARK RYAN R. TRIPOLE**

Department Head  
Department of Pure and Applied Chemistry  
Visayas State University  
Visca, Baybay City, Leyte

Dear Sir Mark,

I am delighted to submit my application to be part of the faculty of the Department of Pure and Applied Chemistry. With my educational background in Chemistry, well-developed laboratory operation skillset, research skills, and commitment to growth, I believe I have good learnings and experiences to impart to the chemistry students of the Visayas State University.

I am a Bachelor of Science in Chemistry graduate at Visayas State University. Throughout the years, I have maintained my enthusiasm in this field and have actively been refining my research skills and critical thinking skills. I was able to graduate as Magna Cum Laude and achieve the highest rating during the 2023 Chemist Licensure Examination. I successfully finished my undergraduate thesis on investigating the levels of Nitrogen, Phosphorus, and Potassium in the water of one of the most economically important rivers in Ormoc City. Moreover, I also have exposure to collaborative environments through my role as Secretary and Fourth-year representative in the VSU Chemical Society. It is also worth mentioning that I was part of the batch challenged by the pandemic, but I have persevered and diligently worked to maximize my learning experience. My journey so far is evidence of my resiliency and continuous striving for growth and excellence.

Several factors attracted me to commit to a career path in teaching, particularly in your department, where I was honed to what I am now. I have always been eager to improve my research capacity and broaden my knowledge of chemistry. I believe that by collaborating with the existing faculties and through teaching, I can lead a purposeful and advancing career. Honestly, I have no work experience in teaching, and I may need guidance to start this journey; however, I can ensure that I am capable of working independently, and I am highly motivated to deliver quality work and utmost professionalism in facilitating the learning journey of the students. If deemed qualified, I am looking forward to growing and contributing my best to the department's objectives of striving for academic excellence and fostering a positive work and learning environment.

Kindly review the attached documents. I look forward to the opportunity to further discuss my potential role as a faculty member. Thank you for your time and consideration, and God bless you.

Sincerely,

  
Krizzia Mae D. Ignacio
