CAREER SUMMARY

Working as a professional nurse at different institutions with various fields of specialization. From community health nursing to a tertiary hospital Cebu Doctors Hospital (300 bed capacity) and its sister company North General Hospital (100 bed capacity) and recently being a GNU staff nurse at Medical Center, Manila which offers wide information with its latest equipment and technologies for medical treatments. Had been working as a dental nurse at Dr. Abdullah Al' Mozher Dental Polyclinic, which caters all around dental procedures, treatments and prosthesis.

A career shift from hospital work to academia being a Nurse Clinical instructor and an educator I have been doing theoretical nursing lectures both in the clinical area and in school and guiding the students in developing and applying their skills, knowledge and positive attitude learned.

As an academician for nearly 16 years, I have been exposed to the different fields of nursing which includes the very basics of Fundamental of Nursing Practice, Theoretical Foundation of Nursing, Emergency and Critical Care Nursing, and Disaster Nursing. I am supervising students in Community Health Nursing, Psychiatric Nursing, Emergency Nursing, and Pediatric Nursing.

Moreover, my role as faculty extends not just inside the classroom and clinical areas but also through research and advocating services as part of community extensions projects, programs, and activities that touch the lives of the people in the community by doing seminars and training both as a host and resource person.
