**DR. ELIZA D. ESPINOSA**

Director

Institute of Tropical Ecology and Environmental Management (ITEEM)

Visayas State University-Main Campus

Visca, Baybay City

Dear Dr. Espinosa,

Good day!

I am writing to express my interest to apply as Part-Time Instructor at the Institute of Tropical Ecology and Environmental Management (ITEEM) – Visayas State University-Main Campus.

I have a BS degree in Environmental Management from one of the prestigious university in the Philippines – Visayas State University (VSU), which is one of the leading university in research in the country. I have a well-trained exposure on public communication (interviews and focus group discussion), field works, and research. I have also practiced in learning and topping new technologies as needed. In addition, my thesis entitled “Nutrient Dynamics and Retranslocation of Dipterocarp Seedlings in Response to Nutrient Management Under Screen House Condition” in Terrestrial Ecosystems Division of Institute of Tropical Ecology and Environmental Management in VSU involves the understanding the nutrient economy of plants in different treatments. Moreover, I was chosen to participate as a delegate for the 2<sup>nd</sup> EDC- Binhi Youth Conference last 2013 held at Antipolo City representing the VSU, as well as passed the screening as a participant of the International Volunteers’ Training on Rainforestation at VSU, Baybay City, Leyte in partnership with ten Japanese trainees of Institute of Environmental Rehabilitation and Conservation (ERECON) from Japan, funded by the National Land Afforestation Promotion Organization (NALAPO).

Recently, I obtained my Juris Doctor Degree from Dr. Vicente Orestes Romualdez Educational Foundation – College of Law in Tacloban City.

The job at your department sounds highly motivating and just the right step for me. I can bring my skills, knowledge and commitment to excellence through your department’ innovative environment. I can impart my knowledge to the students and teach them the importance of the environment and incorporate the laws in our country. I believe that environmental education is a primary need for the people to appreciate our environment. This would lead to awareness, protection and conservation of our environment. As an advocate, I believe that we have the intergenerational responsibility to the future generation for them to have a healthful and balanced ecology.

Please kindly see my curriculum vitae/resume for additional information.

I can be reached anytime via email [rizathereseamanongsong@gmail.com](mailto:rizathereseamanongsong@gmail.com) or my cell phone, 09368782515.

Thank you so much for your time and consideration.

Respectfully yours,

**RIZA THERESE P. MANONGSONG**  
Applicant
