ROBELYN T. PIAMONTE

Department Head

Department of Pest Management

Dear President Yepes,

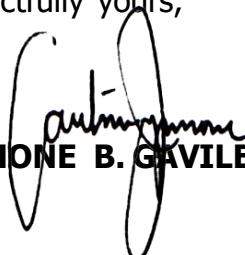

It was brought to my attention that your institution needs a permanent Associate Professor II in the Department of Pest Management. I am interested in applying for the position at your esteemed institution with enthusiasm as a graduate candidate for a Master of Science in Plant Pathology with a Minor in Entomology with a keen interest in mycology.

Fortunately, through the Accelerated Science and Technology Human Resource Development Program (ASTHRDP) of DOST-SEI, I was able to complete my MSc studies at the Visayas State University. During my graduate studies, I was able to equip myself in the aspect of plant resistance and apply it to my MS thesis. I actively promote a flexible, motivating, and progressive learning environment. I can affirm this with confidence because I was employed as an Instructor at South Cotabato State University from 2022 to the Present.

With my teaching experience and a research-oriented foundation, I believed that I could be a great asset to achieving the institution's vision and mission.

I have enclosed my curriculum vitae and other professional credentials. I would enjoy discussing this position with you in the weeks to come. If you require any additional information, please do not hesitate to contact me. Thank you for your time and consideration.

Respectfully yours,

REYMONE B. GAVILEÑO
