**ROBELYN T. PIAMONTE**

*Head*  
Plant Disease Diagnostic Laboratory  
Visayas State University  
Visca, Baybay City, Leyte

Dear *Ms. PIAMONTE*,

Greetings!

I graduated last June of 2019 from Visayas State University with a Bachelor of Science in Agriculture with a major in Pest Management and a specialization in Plant Pathology. I would like to apply in Science Research Specialist I position.

I am applying for this position even though I don't have much experience or skillset, which are needed for the job, because I believe that with my attitudes, which are observant and can learn under pressure, would broaden my skillset and knowledge and allow me to implement them to complete the tasks needed in this position.

I hope that the skills I learned may be what you need in your institution.

I am very willing to come for an interview at any time convenient to you.

Thank you so much and God bless.
