Director  
Eco-Farm & Resource Management Institute  
Visayas State University  
Visca, Baybay City, Leyte

Thru: **HONEY SOFIA V. COLIS**  
Director -HRMO

Dear Sir:

Greetings!

I am writing to express my sincere interest in the Instructor III position recently published on the Ecological Farm and Resource Management Institute (Eco-FARMI) Facebook Page. With a strong background in research, extension, and teaching, I am eager to bring my skills and passion for academia to your esteemed institution. Throughout my career, I have dedicated myself to knowledge and innovation, gaining six years of experience in experimental research during my postgraduate studies and one year of teaching in an academic setting. This has equipped me with a comprehensive skill set, including proficiency in data management, analysis, and effective communication.

I earned my Bachelor of Science in Agriculture major in Horticulture, Cum Laude, at Cebu Technological University-Barili Campus on March 28, 2017, and completed my Master of Science in Horticulture minor in Agricultural Extension specializing Postharvest Technology at Visayas State University, Visca, Baybay City Leyte last June 14, 2019. After a year of teaching at Visayas State University- Isabel Campus, I pursued higher education currently taking Doctor of Philosophy in Horticulture with a minor in Plant Pathology, specializing in Plant Tissue Culture and currently on the process of my dissertation. In addition, I worked as Science Research Assistant in the Plant Tissue Culture Laboratory-Department of Horticulture at Visayas State University. I am a DOST-ASTHRDP graduate scholar and Civil Service Eligible. Fortunately, during my undergraduate years, I completed my internship program at Royal Van Zanten Breeding Rijnsenhout, The Netherlands, where I spent six months working on plant breeding and plant tissue culture of cut flowers.

I am particularly drawn to the opportunity to contribute to your research, extension, and academic community. My research-oriented mindset, coupled with teaching experience, positions me to make significant contributions to research projects, extension programs and student development. I am committed to fostering intellectual curiosity and academic excellence.

Thank you for considering my application. I am enthusiastic about the possibility of collaborating with your faculty and contributing to the academic community at Ecological Farm and Resource Management Institute (Eco-FARMI) -Visayas State University.

Thank you and God Bless!

Respectfully yours,

**JINA MAY B. MORALES**  
Applicant
