ELIZABETH S. QUEVEDO

Department Head
Department of Pure and Applied Chemistry
Visayas State University
Visca, Baybay City, Leyte

To: Prof. Elizabeth S. Quevedo

Good morning!

I am writing to express my interest to work as one of your **Instructor I** for **Department of Pure and Applied Chemistry (DoPAC)- VSU Baybay**. I am a licensed chemist with a total of 6.8+ years of industrial laboratory experience; the majority of which came from SGS Philippines Inc. (Lapu-Lapu City, Cebu branch), primarily dealing with the analyses of petroleum products (e.g., lubricants, gasoline, diesel, jet-A1 & fuel oils), FAME and bioethanol fuels. Some of the equipment that I have handled are the following: AAS, RDE, GC, FTIR, mid-IR and KF to name a few.

The latest accreditation that I acquired was ISO 17025:2017 approved signatory (under Philippine Accreditation Bureau- PAB). I have background on equipment verification & calibration, method verification & validation, measurement uncertainty (MU), standard quality control (SQC) & SQC chart via ASTM D6299, and also on various petroleum-based analyses using ASTM (American Society for Testing Materials) methods.

I was a Part-time Chemistry laboratory instructor at DoPAC way back June 2014 to March 2015. Along the journey in pursuing my career path as Chemist, I came to realize through Sir Calibo's encouragement, that there is much more to learn in Chemistry that I cannot possibly obtain while working in the industry. In line with this, I am planning to pursue higher education (i.e., Master's degree) if given the chance and also if given a good compensation accordingly.

You can contact me through the following: +63 9758438349 or +63 9691885971, or message me through LinkedIn: <https://www.linkedin.com/in/arnold-odo-7115961b0>

Thank you for the time and hope to hear from you soon!

All the best,
Arnold R. Odo
