MAGDALENE C. UNAJan
Department Head
Department of Computer Science and Technology
Visayas State University
Visca, Baybay City, Leyte

Dear Ma'am Unajan,

I am writing to express my interest in the Instructor I position (part-time) at Visayas State University, as advertised on social media. I recently graduated with a Doctor in Information Technology from Cebu Institute of Technology-University in Cebu City on June 8, 2024. While I am still processing my transcript of records and other credentials necessary for this application, I can present proof of completing 33 units from the start to the end of the curriculum as a DIT student. In the meantime, I will be attaching my Masters Degree information.

With a Doctor in Information Technology degree and 10 years of experience teaching computer science at ACLC-Ormoc, I am confident in my ability to contribute effectively to your school's educational program.

Throughout my career, I have developed a comprehensive understanding of computer science principles and a passion for educating young minds. My teaching philosophy revolves around fostering critical thinking and problem-solving skills in my students, encouraging them to explore and innovate. At ACLC-Ormoc, I successfully implemented a coding curriculum that engaged students and improved their programming skills, resulting in a significant increase in their overall performance.

In addition to my teaching experience, I have been actively involved in various extracurricular activities, such as coding clubs and glee clubs. These experiences have honed my ability to mentor students outside the classroom, helping them develop a deeper interest in computer science and related fields. I am eager to bring this same level of dedication and enthusiasm to Visayas State University.

I believe that my background and skills align well with your school's mission and goals, and I am excited about the opportunity to contribute to your team.

I have attached my resume for your review. I would welcome the opportunity to discuss how my experiences and vision can be aligned with the goals of the university. Thank you for considering my application. I look forward to the possibility of contributing to your esteemed institution.

Sincerely,

Ibona L. Panto, DIT
