DR. DEEJAY M. LUMANAO

Department Head
Department of Soil Science
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Lumanao,

I am writing to express my enthusiastic interest in the **INSTRUCTOR I** position at Visayas State University, as advertised on the VSU Job Hiring website. As a graduate of Visayas State University with a Master of Science in Soil Science, I am eager to contribute my expertise to your department.

In my previous role as Laboratory Officer at Project Tarsier, I gained significant hands-on experience in soil research, particularly focusing on carbon stocks and accumulation in reforestation. This involved providing insights into the relationships between various soil parameters, parent materials, and soil depth. Currently, I am actively involved in publication writing for soil carbon research alongside international researchers, further enhancing my research and analytical skills.

While I do not have formal teaching experience, my extensive research background has equipped me with strong analytical, communication, and presentation skills that are highly transferable to an instructional role. I am a flexible and adaptable individual, consistently focused on my responsibilities and committed to continuous professional growth. I am confident that my knowledge and practical experience in soil science will be valuable assets to both education and research within the department.

Thank you for considering my application. I am eager to discuss how my qualifications align with the requirements of this role and welcome the opportunity for an interview. I can be reached at +63 985 301 2822 or divina17bedico@gmail.com. I look forward to hearing from you soon.

Sincerely,

Ma. Divina Gracia A. Bedico
