**Dr. Manuel D. Gacutan, Jr.**

Head, Department of Animal Science

Visayas State University

Visca, Baybay City, Leyte, Philippines

Dear Dr. Gacutan,

I am writing to express my interest in the part-time instructor position available in the Department of Animal Science at your institution, as advertised. With a strong academic background in Animal Science and practical experience in the field, I am excited about the opportunity to contribute to the department's educational goals.

I hold a bachelor's degree in Animal Science from Visayas State University, where I developed a strong foundation in animal husbandry, genetics, nutrition, and animal health management. In addition to my academic qualifications, I have hands-on experience working as a swine technician on our family's piggery farm, which supports our lechon business. In this role, I was responsible for managing livestock from breeding to growth. I also served as a Sales and Promotion Representative for Univet Animal Nutrition & Animal Healthcare Company, where I acted as a health consultant for backyard farmers. Furthermore, I filled in as a swine technician whenever our regular technicians were unavailable. Additionally, I have experience conducting seminars and training sessions for small-scale backyard farmers who are just starting in the livestock industry.

Moreover, I gained valuable experience through an agricultural exchange program at Rose Acre Farm in the United States, the second-largest egg producer in the country. This opportunity exposed me to large-scale agricultural operations and modern farming practices, which I believe will enhance my ability to teach and support the academic development of your students.

I am passionate about fostering an interactive and student-centered learning environment where students can connect theoretical concepts to real-world applications. I believe that the most effective learning happens when students are encouraged to think critically, ask questions, and engage with hands-on activities. I am also open to using modern teaching tools and technologies to facilitate both in-person and online learning environments.

I am enthusiastic about the opportunity to join your team and contribute to the academic success of your students. I would be happy to discuss my qualifications further in an interview at your convenience. Thank you for considering my application, and I look forward to the possibility of contributing to your department.

Sincerely,

**Gilhine Rosel Gentallan**
