

**HONEY SOFIA V. COLIS**

Director, ODHRM  
Visayas State University  
Baybay City, Leyte

**Dear Ms. Colis:**

I am excited to apply for the instructor position at Philippine Root Crops & Research Training Center. With my experience in research, passion for development communication, and interest in teaching, I believe I would be a valuable addition to your team.

In my current role as a Science Research Assistant, I have gained valuable experience in agricultural extension through our research project that supports the development of sweetpotato industry in the region.

As an aspiring instructor, I am committed to creating a supportive and inclusive learning environment that empowers students to ask questions and engage with the material.

I hold a Master of Science degree in Development Communication with a cognate in Agricultural Extension, which has equipped me with the necessary knowledge and skills to teach related topics in these fields.

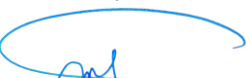

Additionally, my two years of experience in radio broadcasting have honed my communication, presentation, time management, and creativity skills, which are relevant to the teaching profession. I am confident that these skills will allow me to connect with students and create meaningful learning experiences.

Moreover, I am proficient in using technology to enhance the learning experience, including platforms such as Moodle, Google Classroom, Thinkific, Zoom, and Google Meet.

I am excited about the opportunity to join the faculty at Visayas State University and contribute to the success of VSU students.

Thank you for considering my application. I look forward to discussing my qualifications further.

Sincerely,

**Danica Godinez**
