HONEY SOFIA V. COLIS

OIC Director, ODHRM
VSU, Baybay City
Leyte

Dear Ms. Colis,

Good day!

I am Geraldin Mae D. Olaer from Jagna, Bohol. I studied Bachelor of Science in Fisheries at the University of the Philippines in the Visayas and ranked 3rd on the 2021 Fisheries Technologist Licensure Examination. I am writing to express my interest in applying for the position of Science Research Assistant, or for any vacant position that fits my qualification in the Visayas State University.

I believe that my degree has equipped me with essential knowledge and skills in fisheries management, laws and policies; marine fisheries and oceanology; aquaculture; fish processing and technology; general biology and; living systems, concepts and dynamics. My internship at the Community Centred Conservation (C3) Philippines at Busuanga, Palawan and thesis entitled Baseline Assessment on the Coral Reef of Damilisan Marine Sanctuary under the Institute of Fisheries Policies and Development Studies enabled me to gain experiences in sustainable ecosystem management and conservation, research and extension projects, and community immersion and educational discussions.

I have further developed my interest in environmental management as my training and work experience as a Vannamei Sales Technician at the Santeh Feeds Corporation enabled me to learn and to provide technical assistance on the basics of shrimp farming. I was also exposed to a work environment with dynamic locals, professionals and research enthusiasts where I learned about other aquaculture commodities, aquaculture technologies and sustainable aquaculture, which I can apply as a Science Research Assistant, if given a chance.

The opportunity to apply and be accepted in your esteemed office would not only allow me to share my learned knowledge but also gain valuable expertise that can help me grow professionally and individually. Through this, I can also embody the mandate of being an "Iskolar Para sa Bayan" and return my service to the Filipino people through helping in the upliftment of the fisheries profession and industry of the Philippines.

For further details regarding my credentials, please review my attached documents.

I highly appreciate your consideration of my application. I am hoping for your positive response.

Respectfully,

GERALDIN MAE D. OLAER
