DR. JANNET C. BENCURE
Dean, College of Engineering
Visayas State University

Dear Dr. Bencure,

I am writing to apply for the position of Instructor I at the Department of Geodetic Engineering of Visayas State University. I am a graduate of this university batch 2013. I also worked as a Science Research Analyst for more than 6 years at the Geographic Information System Services Unit (GISSU) under the OVPREI. I have spent the past 7+ years doing data land surveys, GIS-based researches and data processing and analysis using GIS-related software.

During my employment as SRA, I was also a part-time Instructor in the 1st semester in 2016, teaching GENG 153-Remote Sensing since the subject was related with the Phil-LiDAR Project at that time. But because the project was in its final year in 2017, I did a lot of travels and field works so I opted to discontinue my part time job.

Now that my JO contract has ended just last month, it's a great opportunity for me to continue the academe path and further my career.

I have enclosed my curriculum vitae, TOR and PDS in this application for your reference. Feel free to contact me if you require additional information.

Sincerely,

CELESTIAL A. MANIGO
