Manuel D. Gacutan Jr.

Head, Department of Animal Science
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Gacutan,

Greetings of Peace!

My name is Ralph F. Lansaderas. I am currently studying for my master's degree in animal science, specializing in animal nutrition. I would love to apply for the Part-time Instructor position. With my determination and passion for teaching and communication, I am confident in my skills and knowledge to contribute to providing quality education and information for the students and the department itself.

While in my master's degree in animal science, I was a graduate student teaching volunteer in the Department of Animal Science. I attended several seminars and trainings related to my field which I think will contribute a lot in providing quality information and making learning materials for students.

I finished my bachelor's degree (BS – Agriculture major in Animal Science) at Visayas State University where I was able to learn and develop my practical skills in my field, especially in research, communication skills, and responsibility on tasks given since I am part of the student council for two terms now being part of the graduate student council for two terms also.

I am also an experienced Filipino novel writer and a journalist when I was in high school, I represented my school in a regional press conference with my field of journalism.

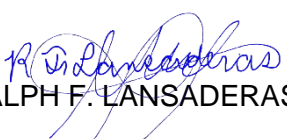

Being a teacher does not only mean communicating with others. I am fully aware that the Department of Animal Science has its projects and activities. I am confident to fully give my support and show my talents in hosting, and organizing events, and event help professors with their students in analyzing their research data and helping them formulate feeds in brilliant software.

The Department of Animal Science is my second home, and I learned a lot of several things not just in academics but in my personal life. In the terms and references mentioned, I am confident that I can do all the tasks with my determination and passion to work and with the supervision of my head. I will be honored about the opportunity to join and be part of the Department of Animal Science to continue and contribute to producing excellent academic performances at Visayas State University.

I am looking forward to the opportunity for an interview to discuss more about myself, share my experiences, and show my skills and knowledge during the teaching demo.

Thank you for your time and consideration!

Sincerely,

RALPH F. LANSADERAS
