Dr. Cheryl C. Batistel  
*Department of Biological Sciences*  
*Visayas State University*  
*PQWV+43 Baybay City, Leyte*

Dear Dr. Batistel,

I am writing to express my keen interest in the part-time biology instructor, with my previous experience as a part-time instructor during the 1<sup>st</sup> semester of S.Y. 2024-2025, I am confident that I now possess the skills and dedication to effectively contribute to the academic success of your students.

In my previous role as a part-time instructor at your good office. I was responsible for five subjects, three of which are core subjects for the biology program. I have employed various effective teaching methodologies, including discussions, laboratory experiments, and utilizing educational technologies to enhance student learning. I have strong communication and interpersonal skills enabling me to adapt and interact with students. I am passionate about fostering a positive learning environment that encourages students critical thinking.

I am available to teach general biology, genetics, zoology, botany and other related subjects as well, and I am very eager in continuing my contribution to the Department of Biological Sciences.

Thank you for your time and consideration and I welcome the opportunity to further discuss my qualifications in an interview.

Sincerely,

Louis Niño C. Cabañero
