John Christian L. Gaviola

Department Head
Department of Civil Engineering
Visayas State University- Visca, Baybay City, Leyte

Dear Engr. Gaviola,

I am writing to express my interest in the Instructor 1 teaching position at the Department of Civil Engineering. As a newly licensed civil engineer and proud graduate of Visayas State University, I am passionate about bringing my practical engineering insights to enrich the learning experience of civil engineering students at the very institution that shaped my academic foundation.

My bachelor's degree in Civil Engineering, specializing in Structural Engineering, has equipped me with analytical skills and foundational knowledge, which are essential in shaping future civil engineers. Throughout my four years at VSU, I have consistently been recognized for outstanding academic performance and was awarded with Consistent President's Honor Award in 2024. Beyond academics, I was also an active student leader. As the former president of the Philippine Institute of Civil Engineers–VSU Student Chapter, I led student-related activities and coordinated with other organizations, which reflects my ability to lead, facilitate learning, collaborate, and promote engagement among students.

My internship experiences at Monocrete Construction Philippines Inc. and the Municipal Engineering Office of LGU Limasawa have provided me with hands-on exposure to quality control, site supervision, structural inspections, and technical documentation. These on-field experiences reinforced my preparedness to teach and mentor aspiring civil engineers from both theoretical and practical perspectives.

I am confident that my technical competence, communication skills, and dedication to academic excellence make me a strong candidate for the position. It would be an honor to train the next generation of Viscan civil engineers in gaining real-world understanding of structural engineering.

Thank you for considering my application. Kindly refer to my resume and credentials for your review.

Sincerely,

Devenah Dawn T. Dagohoy
