**Office of the Director for Administration
and Human Resource Development**
G/F Administration Building
Visayas State University
Visca, Baybay City, 6521 Leyte

Dear Members of the Search Committee:

I am writing to express my interest in the Assistant Professor position in the Department of Mathematics at the Visayas State University, as advertised on the department's official Facebook page. I am eager to join the esteemed faculty at the Visayas State University, where I can contribute to the university's mission of excellence especially in Mathematics education, pursue academic research, and participate in campus and professional service activities.

I graduated cum laude with a Bachelor of Secondary Education major in Mathematics degree from Sibonga Community College. I am a licensed professional teacher with a degree in Master of Education in Mathematics from the University of the Philippines Cebu. In line with my commitment to continuous professional development, I am currently planning to pursue a PhD degree in Mathematics Education at the University of the Philippines.

My professional experience includes serving as a full-time Mathematics instructor at Sibonga Community College and as a non-resident faculty member at Cebu Technological University - Argao Campus. Over the past two years, my teaching roles have facilitated both personal and professional growth, allowing me to refine my pedagogical skills and better prepare for more significant responsibilities in the academe. My training and experience have equipped me with the necessary skills and dedication to excel as an Assistant Professor, and I am confident that Visayas State University will provide me with further opportunities to enhance myself professionally.

Thank you for considering my application. I look forward to the opportunity to discuss further regarding the position. I am available for an interview by phone or in person, and I am happy to answer any additional questions you may have.

Sincerely,

Niel T. Cayubit Jr.
