Visayas State University

Baybay City, Leyte

Dear Sir/Ma'am,

I am applying as part time instructor at the Institute of Human Kinetics, as advertised by one of the instructors of the institute on July 19, 2024.

I will graduate this coming August 7, 2024, at the Visayas State University with a degree of Bachelor of Physical Education. During those 4 years of studies, I involved myself in the BPEDSS or APEX organization at IHK. It is a great factor that enhances my skills and abilities in terms of time management, responsibilities, cooperation, leadership, companionship, and knowledge in Physical Education. Furthermore, despite having the ABM in my senior high school, physical education remains to inspire and motivate me as a student athlete. Through sports, it builds a better version of me. A person with discipline, resilience, teamwork, flexibility, perseverance, and good character.

Proving as living evidence that involving myself in sports help my overall aspect and capabilities improve to such an extent in the environment of competitions and achievers. Giving me more inspiration and passion to teach students about physical education and health, for I know it is a huge issue that people tend to neglect and set aside. With the knowledge I gained and the desire to learn more, I am certain of the quality of education I receive at the Visayas State University. I teach students in the best way I can to convey to them the importance of this field in their daily lives.

Thank you for investing your time in reading this letter. I have attached my resume for your consideration, and if you are interested in learning more about my qualifications and experiences, please do not hesitate to contact me using the information above.

I look forward to hearing from you at your convenience.

Respectfully yours,

Mariel B. Martinez
