### EXPERIENCE

#### Department of Pest Management, Visayas State University, Visca, Baybay City, Leyte

##### Part-time Instructor

September 2022 – February 2023

- Facilitated laboratory classes in General Physiology and Toxicology as well as Beneficial Arthropods and Microorganisms, fostering hands-on learning and critical thinking in applied life sciences.
- Created a dynamic and learner-centered lesson plans that integrate both traditional methods (e.g., hands-on experimentation, fieldwork)
- Tailored teaching-learning experiences to suit diverse educational environments—whether face-to-face, blended, or fully online—maximizing student engagement and comprehension.
- Regularly monitored and evaluated student progress through formative and summative assessments, ensuring alignment with course outcomes.
- Implemented a range of assessment tools—such as practical performance tasks, laboratory output reviews, quizzes, and reflective exercises—to gauge both theoretical understanding and applied skills

- Provided timely and constructive feedback to enhance learning and encourage continuous academic growth and self-improvement
- Used student performance data to adapt instructional strategies, identify learning gaps, and promote differentiated support

**Dole Philippines Inc., Brgy. Cannery Site, Polomolok, South Cotabato**
