Dear Dr. Rosario P. Abela;

I am writing to express my interest in the Instructor I position at the Department of Teacher Education at Visayas State University. With a strong theoretical understanding of the teaching profession, I am eager to contribute to the excellence of this esteemed institution.

I hold a bachelor's degree in elementary education from the Visayas State University, where I had General Education as my specialization. My academic and online teaching journey has equipped me with comprehensive theoretical and practical knowledge that I am looking forward to sharing with the students at the Department of Teacher Education. Additionally, my experience in teaching internship in my last year in college, which also made me earn the Student Teaching Proficiency Award, has honed my abilities to deliver engaging and effective instruction. I am particularly drawn to Visayas State University because of its commitment to promoting a dynamic and supportive learning environment.

I have always been impressed by the university's dedication to global excellence and its competitive approaches to education. I am confident that my skills, love for teaching, and my dedication align well with the core values and objectives of your department. I am excited to contribute to the development of future educators and to be part of the vibrant and warm academic community at Visayas State University, particularly at the Department of Teacher Education. I am confident that my achievements, skills, determination, and expertise make me a strong candidate for the Instructor 1 position.

Thank you for considering my application. I look forward to the possibility of discussing how my background, skills, and enthusiasm can contribute to the continued success of the Department of Teacher Education. I am looking forward to having the final interview with you.

Sincerely,

Rod Mark N. Pedere
