*Department Head
Department of Teacher
Education
Visayas State University
Visca, Baybay City, Leyte*

Dear Dr. Yepes:

Auspicious Greetings of Peace!

I have read an announcement on the VSU Page announcing its search for the Instructor I (Science) position, which is now ready to accept applicants. Please consider my educational qualifications, training, seminars, and experiences to qualify me for the position.

I am **MICHAEL PALOMARES DOYSABAS**, a senior high school teacher at Sogod National High School, single, a Roman Catholic, in good health, of good moral character, and a resident of Barangay Rizal, Sogod Southern Leyte. I finished my Bachelor of Secondary Education major in Biology and Chemistry at the Visayas State University, Visca, Baybay City, Leyte, in October 2011 and completed the Master of Arts in Teaching major in Natural Sciences at Southern Leyte State University – Graduate School last April 2017. I am a Doctor of Education in Science Education candidate at Cebu Normal University, Cebu City.

I have been so passionate about this vocation, and it was even more when I started as an elementary science teacher at Merryhills Academy of Sogod Inc. It has been an excellent year for me because I was fortunately hired as a Junior High School Teacher at Polahongon National High School, Mahaplag District, Leyte Division, for almost five years. Currently, I am a Senior High School STEM Teacher at Sogod National High School, where I am tasked to handle Core and Specialized Sciences subjects. I have been exposed to various content- and research-related activities and engagements that made me organize several seminar-workshops related to my specialized subject and other related topics for science curriculum education in both Leyte and Southern Leyte Divisions. Reverberating these immense experiences in the teaching agency and as a CBPSME Scholar, I came to venture the opportunity to work in this reputable and remarkable institution where I can be of great help to the changing demands of planning, organizing, applying, and assisting a sound and functional science institution.

With this pertinacious decision, I challenge myself to the inevitable changes, adjustments, and responsibilities, for I believe God made everyone with the potential to manage more significant challenges. Moreover, ***I am diligent, reliable, accurate, and efficient as an instructor and willing to be assigned any task in this institution.***

Should an interview be desired and necessary, I am willing to have a virtual or on-site interview scheduled. Attached are my curriculum vitae, TOR, and certifications.

Very respectfully yours,

MICHAEL P. DOYSABAS
Applicant
