Dr. Suzette B. Lina

Department Head
Department of Soil Science
Visayas State University
Visca, Baybay City, Leyte,

Dear Dr. Lina:

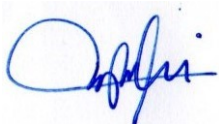

I am particularly interested in the position of Part-time Instructor at the Department of Soil Science. I graduated last 2015 with a Bachelor's degree in Chemistry and gained 28 units (MS academic subjects) in Master of Science in Soil Science from Visayas State University. I have enclosed my resume, TOR (Transcript of Records) and along with this cover letter for your consideration.

I've been a science research assistant at VSU-CASL for about eight and half years. This work experience helped me a lot especially in improving my skills and knowledge especially in different kinds of analyses. I was also exposed to relevant trainings, locally and internationally especially in using different instruments in the laboratory.

Having studied and worked at a university, I believe that aside from the technical skills I learned, I also developed positive attitudes such as being cooperative, hardworking and helpful towards achieving work goals. And I am eager to have a new life experience especially in teaching which can surely benefit the students.

Thank you for sparing your time to read my application. I sincerely hope you will give this some thought, and it would be my pleasure to participate in an interview at the time that suits you most.

Respectfully yours,

Juvylyn G. Niegas
