July 25, 2025

Dear Hiring Committee,

Greetings in the spirit of academic excellence.

I intend to express my interest in the part-time Instructor position in your department. As a holder of a Master of Science in Language Teaching with a minor in Agricultural Education, I believe my interdisciplinary background uniquely equips me to contribute to your department's teaching and academic initiatives.

With over six years of experience in English instruction across both academic and corporate settings, I have designed and delivered learner-centered, outcomes-based instruction that fosters critical thinking, communication, and intercultural competence. My work as an English Instructor and Adviser at Visayas State University Integrated High School, combined with my experience as a Communication Trainer, has honed my ability to engage diverse learners, develop relevant instructional materials, and apply innovative teaching strategies; skills directly aligned with your department's desired functional competencies.

I have also presented research at international conferences, co-authored academic publications, and completed training in TESOL, IELTS, TOEFL, instructional design, and eLearning, which further support my capacity to contribute to the department's commitment to quality education and service delivery.

I am eager to serve in a role where I can integrate communication and pedagogical expertise in support of the agricultural and biosystems engineering community; particularly in enhancing students' language proficiency, academic writing, and technical communication skills. It would be a privilege to give back to the university that has shaped my academic and professional journey. It would be a privilege to support the department's mission and give back to the community that molded my academic and professional identity.

Thank you, and I look forward to your favorable response

All the best,

Rose Marie Berdos
