Ulderico B. Alviola

Department Head

Department of Development Communication

Visayas State University

Visca, Baybay City, Leyte

Dear Dr. Alviola:

I am writing to express my utmost interest in the part-time instructor position at the VSU Department of Development Communication. I am enthusiastic to apply all of my academic knowledge and skills in a professional working environment, and contribute to the prestigious Visayas State University.

During my academic tenure at the said university, I have focused on building a strong foundation of skills in the DevCom field, completed all of my courses with professionalism, and honed abilities that were outside my strengths. I have also independently ventured various research strategies that further honed my fact-checking and data gathering skills that are necessary for conducting research other than the lessons from my courses. On top of that, I have completed an internship experience at the Philippine Rice Research Institute (PhilRice) where I managed scientific contents on information sheets, gathered factual data, and generated educational information.

These experiences has taught me the importance of sharing and teaching crucial knowledge with students and individuals, which I am excited to bring to the department.

Additionally, I have been involved in journalism and journalistic work such as: writing news, science, and sports articles, proofreading and editing articles, and giving out journalism workshops. These activities have helped me develop a strong foundation in my communication skills, emphasize the value of teamwork and being a good leader, and uphold core values with professionalism at all times.

I am confident that my background and enthusiasm will enable me to make a good difference to realize and achieve the university and the department's vision, mission and goals.

I have attached my resume and I'm eager to discuss how my skills and background potentially align with the goals of the department. Thank you for considering my application. I am looking forward to the possibility of working for the university, and for the department.

Respectfully,

Hans Christian T. Tumarao
