Deejay M. Lumanao, PhD

Department of Soil Science

Visayas State University

VSU, Baybay City, Leyte

Dear Dr. Lumanao,

I am writing to express my interest in the part-time instructor position at the Department of Soil Science. As a dedicated and passionate graduate student currently pursuing my Master's degree in Soil Science, I am eager to contribute my knowledge and experience to the academic growth of students within the department.

My professional background includes over two years as a Customer Care Representative, which honed my communication and interpersonal skills, and one year and five months as a Research Assistant. During my time as a Research Assistant, I supported training programs for farmers, assisted in implementing projects, and gained valuable hands-on experience in agricultural research. These roles have equipped me with the ability to engage with diverse individuals effectively, convey complex information clearly, and adapt to new challenges.

Although I do not yet have formal teaching experience, I am confident in my ability to rise to the challenge of educating and inspiring students. My ongoing research into nutrient uptake and soil amendments demonstrates my commitment to advancing knowledge in soil science, and I am excited to share these insights in a classroom setting.

I believe that my academic background, practical experience, and enthusiasm for learning and teaching will make me a valuable addition to your faculty. I would be honored to contribute to the department's mission of fostering academic excellence and practical expertise in soil science.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experiences align with the needs of the department. Please feel free to contact me at 09071154494 or jlp.jaca@gmail.com to arrange an interview/teaching demo.

Sincerely,

Jayca Lyn Jaca
