Subject: Application Letter for Part-time Instructor Position for the Department of Computer Science and Technology

Dear Ma'am,

With utmost respect, my name is Jose Arniel J. Pama, a resident of Ormoc City, Leyte. I am writing this letter to express my intention to apply as a part-time instructor in the Department of Computer Science and Technology at VSU.

I was excited to find your open position for an instructor in your department as I have been trying to find an avenue to share my relevant knowledge and experience in the software engineering and computer science industry. I had been working as a software engineer for 3 years now and I specialize in web development. I have worked on several web development frameworks and technologies like VueJS, Quasar, TailwindCSS, Flutter, Firebase, and Flutter. Essentially, I have solid experience in software engineering, particularly in web and mobile development. I also have some experience in UI/UX and have undertaken some bachelor's degree units in Artificial Intelligence. Additionally, the relevant programming languages that I have used in some of my previous works include Python, Javascript, Java, C, and C++.

I understand that it was specified in your job posting that the minimum qualification must include a master's degree. However, I am still in the process of applying for one but I am optimistic that you may have open opportunities which I can fulfill in your department depending on how you see my application fit.

Thank you so much for considering my application. For more relevant information about my work, you may visit my online resume at <https://resume.io/r/YqCDbyTyM> and my online portfolio at <https://pama-arniel.github.io/portfolio/>.

Sincerely yours,

**Jose Arniel Pama**
