EUSEBIO R. LINA, JR.

Department Head
Department of Mathematics
Visayas State University
Visca, Baybay City, Leyte

Ma'am;

Greetings of Peace!

I would like to express my desire to be an Assistant Professor for the following academic years in this University. It has been my dream since I was just starting my college years to be a Professor someday. And it will be a great honor if it will be with Visayas State University. I have more than 7 years of teaching experience in DepEd Eastern Samar as a Permanent Senior High School Teacher II; however, I recently resigned from the Department due to personal family matters and my desire to pursue my childhood dream. I also have participated on several seminars/trainings (either local, national or international) for my personal and professional development. Furthermore, I also have completed my coursework in Master of Education major in Mathematics at Leyte Normal University. With those qualifications, I believe that my dream will be realized.

My experiences as a teacher have afforded me the opportunity to interact with diverse student populations and engage them in learning. Using teaching methods that coincide with the Universal Design for learning, providing high-interest learning material, multiple means of assessment and instruction, as well as the careful modelling and scaffolding of new skills, I strive to ensure that every learner achieves permanent learning. And with such passion, it will be an honor to continue my service on your University.

I look forward to hearing from your good office at your earliest convenient time to further discuss my qualifications. Thank you and may God bless us more.

Respectfully,

MAE GRETZ D. NAULA
Applicant
