Department of Meteorology
VSU,Visca Baybay,Leyte

Dear maam&sir,

I am writing to express my interest in the Utility Worker II position at your department. With over 15 years of extensive experience in various fields of construction, including carpentry, welding, fabrication, electrical, masonry and supervision, I believe I possess the skills and experience that would make me a valuable asset to your team.

Currently, I am employed at UICTS (VSU) as a Welder, Fabricator,Electrician,Carpenter ,Fiber Optic Termination and Cabler. During my time here, I have honed my skills in various aspects of construction work, including welding, structural fabrication, and equipment maintenance. I also served as the Foreman for the College of Engineering from 2014 to 2022, overseeing construction projects and ensuring that the work was completed to the highest standards.

Previously, I held the position of Welder at Makati Systech Company year 2013. My international experience as a Welder/Electrician in Qatar (Middle East) also allowed me to work on diverse projects that required precision and attention to detail, further expanding my skill set.

I have also worked as a Skilled Welder at VSU-OVPAF from 2007 to 2009 and as a Technician at Visca Foundation from 2005 to 2007, where I gained hands-on experience in various technical and carpentry-related tasks.

While my background has primarily focused on welding and fabrication, my experience in supervision, problem-solving, and managing teams has equipped me with the necessary skills to work in a variety of trades, including carpentry. I am eager to apply my knowledge in this new role and contribute to the success of your team.

I have attached my resume for your review and would welcome the opportunity to discuss how my experience and skills can contribute to your company. Thank you for considering my application. I look forward to the possibility of working with you.

Sincerely,

 BRYAN M. PONCE
