Dr. Robelyn T. Piamonte
Department Head
Department of Pest Management
Visayas State University
Visca, Baybay City, Leyte

Dear Ma'am,

I would like to be considered for the position posted for the Instructor Position, job code: OWVNQH of the Department of Pest Management, VSU.

I graduated with honors last 2020 from our reputed school, Visayas State University with bachelor's degree in Agriculture major in Plant protection. To continue develop myself academically, I started pursuing my graduate degree in 2021 enrolling in the Graduate School of the same university. My degree of concentration is Master of Science in Plant Pathology. Though I haven't had an experience in teaching yet, I believe that I am ready to take responsibilities of an instructor as I have already equipped myself with skills and learnings which I have gained through the series of lectures in the graduate school and seminars/webinars I attended in the past.

Joining this department will be an added experience, transit my passion of applying what I do best which would be beneficial to both the department/students and I growing together.

I would be thrilled if considered to bring my skills to DPM. I would welcome the opportunity to meet and discuss further any concerns you may have about me or application.

Thanks for your time and consideration.

Sincerely,

Delina Gerobise
