## RESEARCH AND INNOVATIONS

- **Performance Evaluation of the Developed Smart Relay for Household Appliances**

*I developed an automatic sound-triggering prototype device where any electrical appliances automatically function when it detects users hand clap and will automatically shut down the relay module if detected prone to overheating for safety purposes.*

## SKILLS AND ABILITIES

- **Excellent in handling Customer Services**  
*I have a proven track record of providing outstanding customer service, ensuring a positive experience for clients and visitors. I am adept at addressing inquiries, resolving issues, and maintaining a friendly and professional demeanor at all times.*
- **Verbal and Written Communication Skills**  
*I adept at conveying ideas with clarity and precision through articulate verbal communication and well-crafted written content.*
- **Very Literate in Computer Systems and Proficient in any Microsoft-Office Programs**  
*I possess considerable expertise in various computer-related systems, with high proficiency in all MS Office applications such as Word, PowerPoint, Excel; also includes software and hardware troubleshooting.*

- **Knowledgeable in Photo/Video Editing, 3D Modeling; and Programming Languages.**  
*My technical expertise extends to graphical editing field under any Adobe applications; in modeling such as AutoCAD and Google SketchUp; in languages such as Java, Python, HTML and CSS.*
- **Strong Problem-Solving skills**  
*My track record of successfully resolving problems, both big and small, speaks volumes about my dedication to making the world a better place through thoughtful and effective solutions.*
