As a previous employee in an industry, I learned to value work. I fully understand that determination, patience and hard-work go together to effectively do the job well with contentment and with quality. With the pandemic, I lost my job as I prioritized health yet it gave me a lesson that there is hope and opportunities may come at the right time. It is therefore my greatest dream to grab a job opportunity someday where I will be able to utilize my strong skills, educational background and ability to work well with people, which allow me to grow personally and professionally.
