CHRISTY M. DESADES

Department Head
Department of Secondary Education
Visayas State University
Visca, Baybay City, Leyte

Dear Ma'am/Sir,

Good day!

I am writing to express my sincere interest in applying for a part-time instructor position in Science at Visayas State University Integrated High School. I recently graduated with a Bachelor of Secondary Education, major in Science, and I am excited for the opportunity to bring my knowledge, skills, and values to your institution.

Throughout my academic journey, I have specialized in Physics and Research—fields where I feel most confident and passionate in guiding students. I have also worked as a freelance tutor, helping learners understand complex scientific concepts and supporting them in conducting meaningful research. These experiences have deepened my commitment not just to academic excellence, but also to student-centered teaching.

In 2023, I completed my teaching internship at Baybay National High School under the Science, Technology, and Engineering (STE) Program. I taught Physics and Earth Science, which helped me gain valuable experience in lesson planning, classroom management, and learner engagement.

More than just teaching science, I also believe in integrating values in the learning process—promoting curiosity, integrity, responsibility, and compassion among students. I see education as a powerful tool not only to inform minds but also to transform character, preparing students to become responsible members of society.

I am drawn to Visayas State University Integrated High School because of its commitment to holistic education, and I would be honored to contribute to that mission as a part-time faculty member.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills align with the needs of your university.

Sincerely,

ROD JAMES LATORENO BANDE

Applicant
