JOHN CHRISTIAN GAVIOLA

Department Head

Department of Civil Engineering

Visayas State University – Main Campus

Visca Baybay City, Leyte

Dear Sir John,

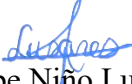

Good day!

I'm reaching out formally to show my interest in becoming an **Instructor I** at Visayas State University – Main Campus. Given my training, classroom work, and devotion to providing a positive learning setting, I believe I would be a good fit for helping the institution reach its mission. I completed my Bachelor of Science in Civil Engineering at the same university, and there I continued learning and training in my skills in engineering theories. I am also currently on my Master's Degree in Civil Engineering, Major in Structural Engineering, and I am now working on my thesis. Over time, through what I learned and did, I grew to love teaching and mentoring and helped students succeed in both their education and lives.

I also bring experience from different seminars and trainings related to the civil engineering industry, and my teaching experience at the department of civil engineering in VSU for three semesters in the previous year 2022 – 2023. All this helped me develop stronger planning skills, the ability to control the class, and effective ways to communicate. I am excited to learn more and actively contribute to training courses, similar research activities, and campus outreach efforts. Being included in your organization inspires me to help maintain your high level of academic achievement. I am very eager to talk about how my credentials meet the needs you have right now.

I have provided my documents for your review as I comprehended. I hope you will share your views and am available to be interviewed whenever you are most ready. I am truly grateful for you looking over my application.

Respectfully Yours,

Felippe Niño Lusares
