DIRECTOR ROMEL B. ARMECIN

Director, National Abaca Research Center
Visayas State University
Visca, Baybay City, Leyte

Dear Director Armeцин:

Greetings of Peace!

I am writing to express my interest in applying for **Science Aide** at the National Abaca Research Center. I am a graduate of the Bachelor of Science in Agricultural and Biosystems Engineering at Visayas State University in Baybay City, Leyte, and I recently passed the Agricultural and Biosystems Engineers Licensure Examination in December 2024.

In college, I studied various engineering principles essential for designing agricultural systems and solving agricultural management problems. I spent enough quality time in learning the principles of research as well as performed my thesis in the most scientific method that it required and had become. With my knowledge in agricultural engineering, I am personally committed to contributing to the development of the agricultural sector in the Philippines, particularly in ensuring the country's food security and alleviating the lives of the farmers.

I hope that you will consider this application. Thank you very much!

Respectfully,

KURT A. ADAPTAR
Agricultural and Biosystems Engineer
