REV RHIZZA L. AURE

Department Head
Department of Physics
Visayas State University
Visca, Baybay City, Leyte

Dear Ma'am/Sir,

Good day!

I am writing to express my keen interest in the instructor position within the Department of Physics at Visayas State University Main Campus. During the first semester of SY 2024-2025, I had the privilege of serving as a part-time instructor in the same department, where I handled both General Education courses, such as Science, Technology, and Society (ScTS), and General Science courses with laboratory components, including Thermodynamics and Mechanics and Thermodynamics. This experience has deepened my understanding of academic instruction in a university setting and strengthened my passion for teaching and mentoring students.

Prior to this, I completed my teaching internship at Baybay National High School, where I taught Physics for Grades 8, 9, and 10 under the Basic Education Curriculum (BEC) and integrated related topics in Biology, Chemistry, and Earth and Space Science. My efforts were recognized with the Student Teaching Proficiency Award, which further motivated me to pursue excellence in education.

As a proud alumna of Visayas State University, where I graduated Cum Laude with a Bachelor of Secondary Education degree majoring in Science, I have honed my ability to design engaging and structured lessons, manage classrooms effectively, and adapt instruction to meet the diverse needs of learners. I am dedicated to fostering a positive and inclusive learning environment where students feel empowered to reach their full potential.

I am excited about the opportunity to continue contributing to the Department of Physics by leveraging my academic background, teaching experience, and commitment to student success. I look forward to collaborating with colleagues to further enrich the university's curriculum and provide a high-quality learning experience for students.

Thank you for considering my application. I am eager to discuss how my skills and experiences align with the needs of your department.

Sincerely,

JANNIEN DORA H. CABAHER
