Mark Ryan R. Tripole

Department Head, DoPAC
Visayas State University
Baybay City, Leyte, Philippines, 6521

Dear Mr. Tripole,

I am writing to express my sincere interest in the Part-Time Instructor position at Department of Pure and Applied Chemistry, Visayas State University, as advertised. As a recent graduate of Visayas State University with a degree in Bachelor of Science in Chemistry, I am eager to apply the knowledge, discipline, and dedication I have developed throughout my academic career in a professional environment.

While I may not yet have formal industry or academe experience, my education has provided me with a strong foundation in the core principles of chemistry, including analytical techniques, laboratory protocols, and scientific reasoning. Beyond academics, I have actively engaged in training seminars regarding chemical waste management and safety in the chemical laboratory, setting standards in analytical chemistry and also, I had been part of the Chemical Society as a year level representative, which have sharpened my skills in communication and collaboration with other chemistry students and professionals, all of which are critical in a fast-paced and goal-driven workplace.

I am highly motivated, quick to adapt, and committed to continuous improvement. I welcome the opportunity to prove my potential and grow with an organization that values initiative, fresh perspectives, and strong work ethic.

Thank you for considering my application. I would be grateful for the opportunity to further discuss how my background and passion can add value to your department. I am available at your convenience and can be reached at florezafernandez11@gmail.com or through my contact number, 09624109864.

Sincerely,

FLOR EZRA A. FERNANDEZ
