Engr. Vic Angelo L. Impas

Department Head
Department of Mechanical Engineering
Visayas State University
Visca, Baybay City, Leyte, 6521

Dear Sir Impas,

I am writing to express my sincere interest in the Instructor I position within the Department of Mechanical Engineering at Visayas State University. As an alumna of VSU Mechanical Engineering Program and a licensed Mechanical Engineer, I aim to contribute to the academic excellence and mission-driven culture of the university.

Following my licensure, I gained valuable industry experience as a Project Engineer in the vertical transportation sector, where I assisted clients with technical requirements, coordinated design specifications, and managed projects from planning to maintenance, ensuring timelines were met and issues resolved efficiently. Presently, I am employed as a Data Engineer, where I develop data integration and automation solutions, further enhancing my analytical and problem-solving capabilities. These experiences have equipped me with practical knowledge and professional discipline that I am enthusiastic to impart to future engineers. Although I have yet to complete a master's degree, I am fully committed to pursuing graduate studies in Mechanical Engineering.

I welcome the opportunity to contribute to the development of competent and values-driven engineering graduates and to support the university's mission of service and excellence. Thank you for considering my application and I look forward to the possibility of discussing how I can contribute to our very own Department of Mechanical Engineering and to Visayas State University.

Respectfully,

Lesitte O. Lesigues
