Dear Sir:

I am reaching out to you regarding the posting for teacher Applicants I found online | Indeed I've been passionate about teaching since I began tutoring for the previous year and I have seen years of teaching experience, instructing children with a diverse range of abilities.

I have a strong passion for serving people which is why I have found such fulfillment in helping my community, providing support to my fellow students, and assisting them in ways that benefit them both personally and professionally since I am a school leader at that time. I also enjoy looking for solutions to common problems in school or our community and being observant can mean the difference between a dead adventurer and an alive one. Perception checks are used whenever a character is actively looking for something, which would be a great asset to the school. I believe my innovative nature and strong skill set will help me succeed.

I have strong communication skills, which are vital to success in the field of interacting with people. I also have a Bachelor's Degree in Secondary Education with a major in Social Science at Abuyog Community College. Throughout my education, I worked with skilled professionals who have shared their insights and experience with me. Some of my strongest skills include my ability to increase people retention through the improvement of the school culture and to develop training and education programs to ensure all students have access to the information they need to succeed.

I appreciate your time in reviewing this letter and hope to hear from you concerning the next steps in the hiring process.

Best wishes,

CARREN R. ANDRIANO
