## EDUCATION

### Bachelor of Science in Biology Major In Zoology

Visayas State University

2018-2022

### Technical Vocational Livelihood Strand (Information Communication Technology)

Dagohoy National High School

2012- 2018

with Honors

## SKILLS

Written and Verbal English Communication	<div></div>
Tech-savvy	<div></div>
Attention to detail	<div></div>
Laboratory Skills	<div></div>
Microsoft Office	<div></div>

## INTERESTS

Comparative Anatomy and Physiology  
Animal Reproductive Physiology  
Human Anatomy and Physiology  
General Physiology  
Zoology  
Parasitology  
Epidemiology

## OBJECTIVES

A fresh graduate biologist who aspires to become a part-time college instructor, with interest in zoology, anatomy and physiology. As this is an opportunity to enhance and advance my skills in science education while also fulfilling my passion in teaching. In order to achieve successful learning in the classroom, I aim to develop an engaging professional relationship with students.

## TRAININGS & SEMINARS

### Department of Biological Sciences, Visayas State University

Creating E-learning Materials	December	2021
How to Prepare Information, Education and Communication (IEC) materials	November	2021
Working with Data on Excel	November	2021
Marine Turtle Research and Conservation	October	2021
Theory of Change in Conservation	October	2021
Techniques for Terrestrial Wildlife Surveys	October	2021
Mapping	October	2021

## WORK EXPERIENCE

Researcher 2022

### Undergraduate Thesis

- Thesis Title: Amphibian Abundance and Diversity on Different Habitat Types in Mount Pangasugan, Baybay City, Leyte, Philippines
- Identified species of amphibians under Order Anura.
- Contributes to the current status of Amphibians in Mount Pangasugan.
- Affiliated with BioCAMP ( Biodiversity Conservation and Management Program in Mount Pangasugan) an international funded research.

Intern 2021

### Large Marine Vertebrate Research Institute Philippines

- Gathers data for marine species such as marine turtles and whale sharks.
- Responsible for searching data in the internet.
- Identify the conservation status of the species.
