**Dr. Charis B. Limbo**

Department Head

Institute of Human Kinetics

Visayas State University, Baybay City, Leyte

Ma'am;

A pleasant day to you.

It is an honor to reapply for a teaching position in the Institute of Human Kinetics. I have seen and experienced the progress and success of the University despite the pandemic. And I would still like to contribute and be a part of it.

As you may already know, I graduated last June 2019 from Visayas State University with a bachelor's degree in Secondary Education major in MAPEH, awarded as a proficient student teacher and passed the Licensure Examination for Teachers last September 2019 with the rating of 80.20.

And if I may inform you, as a daughter of a pastor, I am often assigned to teach kids, manage church activities and teach music. These instances have given me the chance to gain helpful experiences in leadership, management and self-discipline. And these experiences have helped me into becoming a great leader.

Given my lack of experience in teaching face to face with my students due to the pandemic, I am very much thankful for great colleagues in the institute for helping me out in these new experiences. Still, I am willing to be trained and undergo series of workshops, seminars and lectures for future betterment if ever I am to be employed again.

I have here my pertinent documents for evaluation.

Thank you for considering my application. I am hoping for your favorable response.

Sincerely,

Chesza Ruth S. Zabala
