EDUCATION

2021-2024

UNIVERSITY OF THE
PHILIPPINES - LOS BANOS

- Master of Science in
Agricultural Engineering

2012-2017

VISAYAS STATE UNIVERSITY

- Bachelor of Science in
Agricultural Engineering
- GPA: 1.862

SKILLS

- Leadership
- Critical Thinking
- Management
- Communication
- Computer Literacy
- Programming
- Organization

LANGUAGES

- English (Fluent)
- Tagalog (Intermediate)
- Cebuano (Fluent)

PROFILE

A dynamic and adaptable agricultural engineer with a youthful and creative mindset, passionate in both teaching and research. Teachable and eager to grow, but also a mentor. Possesses positive work relationship and can adapt to diverse work environment. Flexible and can thrive in unexpected changes. Has strong dedication to continuous learning and innovative problem-solving. Dreams to become a farmer, a businessman, and a productive researcher helping communities achieve food security.

WORK EXPERIENCE

Renewable Energy Research Center - VSU

AUG-DEC 2024

Science Research Specialist I

- Worked closely with the project leader of the project: "Hydraulic Ram Pump Development and Automation for Small irrigation System in Upland Barangays"
- Assisted with the drafting of publishable article from the project entitled: "Development of a testing rig for ram pump"
- Assisted with the drafting of the project's terminal report

Department of Agricultural and Biosystems Engineering, VSU

2017-2021

Instructor I

- Taught engineering science courses such as computer-aided drafting, statics of rigid bodies, and strength of materials
- Taught agricultural engineering courses such as agricultural structures, and agricultural mechanization and machinery
- OJT Adviser of approx. 15 graduating students
- Project Leader (2019-2020) of the project: "Development of emergency shelters using engineered bamboo"

Freelancing

2017-2018

Agricultural Engineer

- Designed engineering plans for a 25-sow level swine housing for a farm at Brgy. Bago, Bato, Leyte
