

07 SEPTEMBER 2022

MILAGROS C. BALES

Department Head

Department of Agricultural Education and Extension

Visayas State University

ViSCA, Baybay City, Leyte

Dear **Dr. Bales**,

Greetings!

I am Jeanie Rose S. Deluza, a fresh graduate with the degree of Master of Science in Development Communication with a minor in Agricultural Extension at Visayas State University. I am writing to express my intent to apply as an Assistant Professor in Agricultural Extension. For years, I've been exposed to research and media-related work at the university as a science research assistant and multimedia specialist.

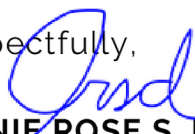

With my line of work, I was given the opportunity to hone my skills in communication, writing, research, multimedia production, and extension work. My training as a DevCom has exposed me to community and extension projects thus greatly influencing my conviction to pursue agricultural extension as my minor during my master's.

Although teaching and instruction may not have been reflected in my curriculum vitae, I do have enough experience and training in class and even in the field as both a development communicator and extension agent. With this, I am willing to learn more and develop myself in the field of academia.

As a development communicator and a product of VSU, I am passionate and dedicated, flexible, and always open to improvement. If given a chance to work in your department, rest assured that I'll bring with me what I have learned during my college and master's years.

With my background in communication, media production, research, and extension, I offer my academic credentials, skill sets, and the right attitude towards work. I've attached my resume for your consideration and I look forward to getting a positive response from you soon.

Respectfully,

JEANIE ROSE S. DELUZA
