KAREN LUZ Y. TEVES

Head, Dept. of Agricultural Education & Extension
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Teves,

I like to express my great interest as part of the part-time faculty in your renowned department.

Being committed to compassionate service as a BS in Nursing graduate is an opportunity to engage in community work in addressing the needs of people from different stages and walks of life, reaching out to target clients with health disparities. Combined with the learnings in my master's program in Development Sociology and a minor Agricultural Extension, creating an organized network to tap important sectors in reaching the unreached is one sure way to address the complexity of societal problems concerning agriculture and health present situation. Helping people by directly immersing in the community is my desire. Conducting and organizing development seminars, community assessments, and other productive activities were part of my student training.

As this opportunity becomes a milestone for career development, I will strive to use the gained knowledge and efforts in the best possible way that would uplift the extension's work and the name of your reputable institution.

Thank you for your time and consideration. I look forward to hearing from you.

Respectfully yours,

HADASSAH A. ESPERIDION
Applicant
