Dr. Edgardo E. Tulin  
Director, PhilRootcrops  
Visayas State University  
Visca, Baybay City, Leyte  
Lisa.arce@vsu.edu.ph

Dear Dr. Tulin,

Good day!

I am sending you this application hoping that you would consider me for the Science Research Assistant position of PhilRootcrops.

I graduated in this University in Bachelor of Science in Agriculture Major in Horticulture in 2002. After finishing my BS degree, I worked as Research Assistant for almost 1 year under Dr. Antonio Acedo Jr., and transfer to Tissue Culture Laboratory of Philrootcrops under the supervision of Dr. Villaluz Z. Acedo as a Science Aide.

I have been working in PhilRootcrops as a Research Assistant (Job Order) for 19 years; 14 years under Dr. Erlinda A. Vasquez working on the pest management of the different root crops varieties. I have comprehensive full understanding in working on different root crops (Cassava, Sweetpotato, Taro and Yam). I believe that my 14 years of work experience and the knowledge I have gained from Dr. Vasquez, from production of quality planting materials to pest management, would be a great attribute for the position that I am applying for. My skills, combined with a fervent interest in your research on the root crops, make me an excellent fit for this role. I can assure you that I have a good attitude towards work. I would give my very best to be an asset to the center and willing to have further training on this aspect.

I would welcome the opportunity to meet with you to discuss my qualifications in more detail and look forward to hearing from you soon. More power and God bless!

Respectfully Yours,

  
RESA M. DACERA
