MAE ANN A. BRAVO

Central Analytical Service Laboratory

Visayas State University

Visca, Baybay City, Leyte 6521

RE: Science Research Specialist II

Dear Ma'am Bravo,

Upon learning about the Science Research Specialist II posting with Visayas State University, I was eager to contact you with my interest. When reviewing the job description, I was excited to see how well my experience aligns with your department's needs and position requirements.

As an adept Laboratory Analyst, I have a well-rounded skill set in analytical techniques and honed talents in equipment maintenance calibration and some knowledge about quality assurance, making me an ideal fit for the Science Research Specialist II position. Further, I am a recognized expert in critical thinking and a communicative collaborator. My previous roles have strengthened my capabilities in interpersonal and communication, including a keen attention to detail and accuracy.

I am excited at the prospect of bringing my skills to Visayas State University especially in Central Analytical Service Laboratory. In fact, I'm a proud product of this university and I also worked as Part-time Instructor last year. I hope that my knowledge, experience, and familiarity with the culture and training I had in my previous jobs will make me an asset.

I look forward to hearing from you, at your earliest convenience, to discuss how my experience and qualifications will prove valuable in the Science Research Specialist II role.

Sincerely,

Angelica C. Managbanag
