

Overview completed units of study

The overview was generated on the date as indicated on the upper right side of every page and pertains the full-time bachelor programme

Tourism Management

Name: Alvin Dave Escuyos Sarzate
Birthdate: 15-08-1992
Studentnumber: 627888

Total earned European Credits: 240 of 240
Total earned European Credits in the foundation stage: 60 of 60
Total earned European Credits exemptions excluded: 240
Degree of the programme: Bachelor of Arts (BA)
Average Grade foundation stage: 6,93
Average Grade: 7,65

The Average Grade as calculated by Inholland is the weighted result based on rounded grades. Please note: the calculation of the classifications 'with merit' and 'cum laude' is based on unrounded grades - see the TER. The Average Grade is calculated as follows:

- *Final result for a unit of study x the number of ECTS-credits for the unit of study = the total.*
- *The total divided by the total number of ECTS-credits for these units and rounded off to two digits after the decimal point = Average Grade.*

Average Grade foundation stage: Only the unit of study for the foundation stage are included.

Average Grade: Only the unit of study for the post-foundation stage are included.

The calculation also includes extracurricular unit of study. Units for which a pass or an exemption has been granted as final result are excluded.

Explanation

The Tuition and Examination Regulations (TER) uses a scale of 10 – 100 or a pass/fail grading scale. The 'V' designation indicates fulfilled or passed. The 'VR' designation indicates an exemption.

The Dutch grading system, used from elementary through to university education, is the 1 to 10 scale given in the following table, in which 10 is the highest grade, 6 the minimum pass, and 1 the lowest grade. The final result will be rounded off to a whole grade (4,5 or higher is a 5; 5,5 or higher is a 6, etc.).

Based on the table below, an institution abroad can determine the national equivalent of the Inholland grade.

Dutch final grade	Qualitative value	Frequency at Inholland	Cumulative frequency
10	Excellent	1,6%	0 - 1,6
9	Very good	8,1%	1,7 – 9,7
8	Good	22,6%	9,8 - 32,3
7	Satisfactory	40,5%	32,4 - 72,8
6	Sufficient	27,2%	72,9 - 100
5 - 1	Fail		

The frequencies in column 3 are based on the final grades that have been awarded within Inholland in the past 4 years (2017 – 2020). Columns 3 and 4 do not contain frequencies for insufficient grades, because the transcript of results never contains insufficient grades. 'Frequency' stands for the relative number of times a grade is awarded within Inholland (all programmes). For example, a 10 is hardly ever awarded (only 1,6% of the time) and a 7 is the most commonly awarded grade (40,5% of the time).

The cumulative frequency in the fourth column can be used to determine which category the person to whom the grade was awarded belongs to. This column is the most important in the conversion of grades received abroad. For instance, a foreign grade that falls into the foreign institute's or country's 32,4 to 72,8 cumulative category, is converted into a 7 at Inholland.
