Hello! I'm a Civil Engineering graduate, and a professional teacher with 13 years of experience in the field. From industries, communities, and classrooms, I have acquired the skills and knowledge necessary to become an effective problem solver, communicator and team player. I also bring a wealth of educational experience to the table, having taught a variety of topics from high school mathematics to college-level engineering courses. In addition to my teaching experience, I also hold units of Masters in Mathematics Education. I am committed to providing excellent service and prompt problem-solving skills for any client or employer. I am a highly motivated and organized individual and take pride in a job well done. I do take business well, I am an asset, never a liability.
