Dr. Christina A. Gabrillo
Head, Department of Development Communication
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Gabrillo,

Good day!

I am writing to express my interest in the faculty position vacancy at the Department of Development Communication, Visayas State University.

I am a graduate of BS in Development Communication in 2014, with a major in Development Journalism. My appointment as a substitute instructor at DDC has just ended in July 2021. I am very much interested to continue working with the Devcom faculty, if given the opportunity.

Publication-wise, I wrote for The Obelisk since 2017, and for the VSU website since 2018. Until, I started to teach in September of 2019 at DDC as a part-time instructor. I believe that I have competent writing, editing, and proofreading skills. I have also worked on outsourced projects including video production for different organizations where I primarily worked as script writer and editor.

The biggest project I've worked on was with the Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA) - Inclusive and Sustainable Agricultural and Rural Development (ISARD). I worked as the project's case study writer for one of its study sites, in Inopacan, Leyte. Currently, I am also involved with some research and extension projects with DDC.

Alongside working, I am also taking my MS degree in Development Communication, with a cognate in Development Sociology.

My curriculum vitae, which I have enclosed for your review, contains additional details about my expertise. I look forward to the opportunity to meet with you to discuss my application.

I can be reached anytime via email at amora.sabmae@gmail.com or by cell phone, 0905 471 6505.

Thank you for your consideration.

Sincerely,

Isabelle Mae J. Amora

Vision: A globally competitive university for science, technology, and environmental conservation.
Mission: Development of a highly competitive human resource, cutting-edge scientific knowledge and innovative technologies for sustainable communities and environment.
