Head

Department of Plant Breeding and Genetics

ViSCA, Baybay City, Leyte

6521, Philippines

Dear Ma'am Jedi,

I am writing to express my enthusiastic interest in the position of Part-time Instructor at Visayas State University's Department of Plant Breeding and Genetics. As a recent graduate with a Bachelor of Science in Agriculture, majoring in Plant Breeding and Genetics, I am excited about the opportunity to contribute my knowledge and passion for agriculture to an esteemed institution like Visayas State University.

During my academic journey, I have developed a strong foundation in agricultural sciences with a focus on Plant Breeding and Genetics. My coursework has equipped me with a comprehensive understanding of the principles and methodologies required to enhance crop yields, develop disease-resistant varieties, and contribute to sustainable agricultural practices.

As a student, I actively participated in student organizations like USSC, CAFS SSC, VSU-DPBG, and the SIDHI Mentors Guild, taking leadership roles and organizing seminars and events related to agriculture. This experience has strengthened my communication and interpersonal skills, enabling me to effectively convey complex concepts to diverse audiences and foster a positive and inclusive learning environment.

I am particularly drawn to Visayas State University due to its reputation for academic excellence and its commitment to research and community development. Joining the faculty as a Part-time Instructor would be not only an opportunity for personal growth but also a chance to contribute to the university's vision of advancing agricultural knowledge and empowering the next generation of plant breeding professionals.

As an enthusiastic and dedicated individual, I am confident in my ability to create engaging and informative lesson plans, foster critical thinking among students, and provide guidance to help them excel academically. I am eager to incorporate modern teaching methodologies and innovative techniques that align with the evolving landscape of agriculture.

I am excited about the possibility of joining Visayas State University now as faculty and contributing to its legacy of excellence. Thank you for considering my

application. I have attached my resume, which details my academic achievements and extracurricular involvement.

Sincerely,

Reford Gid B. Abueva
