Department of Business and Management (DBM)
Visayas State University
VSU, ViSCA, Baybay City, Leyte

Good Day Ma'am/Sir,

I am interested in applying in your department as instructor (substitute). I graduated on June 15, 2018 as Magna Cum laude with the degree in Bachelor of Science in Agribusiness at Visayas State University. As an agribusiness graduate where most subjects deal with management, I will have the opportunity to share the theories and learnings in the classroom to the students and other individuals interested. I have experienced working as a science research assistant, which I assisted in the review and updating of rootcrops' products and technology portfolios. I also served as an instructor for 2 years of which I was a part-time instructor of the university for academic year 2018-2019 and substitute instructor for academic year 2019-2020 of which I taught management related subjects. I am currently finishing my Master of Management (MM) degree to increase my knowledge, educational attainment and further enhance my teaching capabilities. I am willing to undergo trainings and seminars in order to increase my capabilities as an educator. Through this teaching opportunity, I will also be able to share my advocacy about financial literacy and entrepreneurship to the students. Moreover, I hope that the skills and knowledge entrusted to me by God will truly serve His purpose by assisting the university and department in achieving its goals and objectives. Hoping for your kind and positive response. Thank you and God Bless.

Sincerely,

Vince G. Lao
